Abstract rewrites

After the final submission, you will see in the checklist tab an opportunity to submit an abstract rewrite. If there are updates and or corrections that need to be made to your abstract, you may complete this form. **The deadline for submitting a voluntary rewrite is Wednesday, April 19th.** After April 19th, the only abstract rewrites, including those requested onsite at Intel ISEF during project set-up, will be those required by the ISEF SRC.

Final Submission of presentation materials on Project Board:

April 26th ISEF Forms review

All documents and forms must be reviewed by the Society staff before you are assigned a project booth ID. Please allow up to two weeks after submission for the project booth ID to be assigned. You will be sent an email with your ID. You will need it for shipping your project display board.
If we encounter any issues with your paperwork upload(s) or your category selection, or if the SRC has a question, we will try to contact you to correct the problem prior to your arrival at the Regeneron ISEF. Your responsiveness is essential to ensure your participation in the Regeneron ISEF.

Get your project to Intel ISEF

Shipping Your Project: Details not available as of 3/27/23.

Alternatively, you may purchase a blank project board onsite at the Intel ISEF and assemble onsite. Size and Price not available yet as of 3/27/23

AP Testing: AP exams do not conflict with Regeneron ISEF this year. AP exams will be administered May 1-5 and May 8-12.

IB Testing: ISEF is working with the International Baccalaureate Organization to arrange IB testing at Regeneron ISEF 2023. Interested finalists must have their school IB Coordinator fill out this [request form](#) and send it to [support@ibo.org](#) to the attention of Jacqueline Weare, Assessment operations. Please note that there is a $ 52 USD fee per student associated with this process. Schools will be invoiced at the end of May.
